

Compass Therapeutics Announces Pricing of Upsized \$120 Million Public Offering

August 13, 2025

BOSTON, Aug. 12, 2025 (GLOBE NEWSWIRE) -- Compass Therapeutics, Inc. ("Compass") (Nasdaq: CMPX), a clinical-stage, oncology-focused biopharmaceutical company developing proprietary antibody-based therapeutics to treat multiple human diseases, today announced the pricing of an underwritten public offering of 33,290,000 shares of its common stock at a price to the public of \$3.00 per share and pre-funded warrants to purchase up to an aggregate of 6,710,000 shares of its common stock at a price to the public of \$2.9999 per pre-funded warrant to purchase one share of the common stock, which represents the per share public offering price for the common stock less the \$0.0001 per share exercise price for each such pre-funded warrant. The gross proceeds from the offering to Compass are expected to be approximately \$120 million, before deducting underwriting discounts and commissions and other offering expenses. The offering is expected to close on or about August 14, 2025, subject to customary closing conditions. In addition, Compass has granted the underwriters a 30-day option to purchase up to 6,000,000 additional shares of common stock at the public offering price, less the underwriting discount.

Compass intends to use the net proceeds from the offering to conduct initial preparations for commercial readiness, to fund research and clinical development of its product candidates, and for general corporate purposes.

Jefferies, Piper Sandler and Guggenheim Securities are acting as joint active bookrunning managers for the offering. Raymond James, Wedbush PacGrow and H.C. Wainwright & Co. are acting as lead managers for the offering. Ladenburg Thalmann and D. Boral Capital are acting as co-managers for the offering.

About Compass Therapeutics

Compass Therapeutics, Inc. is a clinical-stage oncology-focused biopharmaceutical company developing proprietary antibody-based therapeutics to treat multiple human diseases. The company's scientific focus is on the relationship between angiogenesis, the immune system, and tumor growth. Compass has built a robust pipeline of novel product candidates designed to target multiple critical biological pathways required for an effective anti-tumor response. These include modulation of the microvasculature via angiogenesis-targeted agents, induction of a potent immune response via activators on effector cells in the tumor microenvironment, and alleviation of immunosuppressive mechanisms used by tumors to evade immune surveillance. The company plans to advance its product candidates through clinical development as both standalone therapies and in combination with proprietary pipeline antibodies based on supportive clinical and nonclinical data. The company was founded in 2014 and is headquartered in Boston, Massachusetts.
